Software Development Programs

Enroll with us for short, affordable
courses and gain skills that are top
ranking in the IT Industry.

Our Programs

Software Development Program:(Web Development, Android Dev, Data Science & Cyber Security) Beginners Course

This practical course equips students to develop innovative mobile applications on Android OS. Participants learn to create remarkable apps, understand business concepts for commercialization, and protect against cyber threats. With increasing demand for Data Science skills, this program prepares students for careers across various industries.

Modules

- Web Development: HTML5, CSS, Bootstrap, Python, SQL
- Payment Integration: MPESA, PayPal APIs
- Android Development: Java, Kotlin
- Data Science & Machine Learning: Python, SQL
- Cyber Security & Ethical Hacking
- Business Development: Innovation, Marketing

Duration: 4 Months
Cost: 98,500 KES
(Partial sponsorship available)

Advanced Software Development Course

Designed for experienced developers, this course focuses on advanced skills for large, complex applications. Participants must have prior knowledge of Python, HTML, CSS, and more.

Modules

- Database Design
- System Development
- Mobile App Development
- RESTful API Creation
- Admin Dashboard Creation

Duration: 4 Months
Cost: 68,000 KES
(Alumni Discount: 45,000 KES)

Full Stack Web Development Program

Gain skills in both client and server software development, mastering HTML, CSS, and backend technologies like PHP or Node.js.

Modules

- HTML/CSS, JavaScript
- Backend Technologies
- MEAN Stack (MongoDB, Express, Angular, Node)

Duration: 4 Months
Cost: 68,000 KES

Introduction to Computers and Coding: Frontend Web Development

Ideal for beginners, this course introduces web development concepts, focusing on HTML, CSS, and JavaScript.

Duration: 2 Months
Cost: 35,000 KES

Web & Android Development Program

This course provides practical training for web and mobile application development.

Modules

- Web Development: HTML5, CSS, Bootstrap
- Android Development: Java, Kotlin

Duration: 2.5 Months
Cost: 35,000 KES

Cyber Security & Ethical Hacking

Learn to protect computer systems and data from cyber threats and unauthorized access.

Duration: 1.5 Months
Cost: 30,000 KES

Data Science using Python Program

Acquire foundational skills in data science, including data loading and analysis, using Python.

Duration: 1.5 Months
Cost: 30,000 KES

Python Programming Course

Explore Python programming, including basics, libraries, and application development.

Duration: 1.5 Months
Cost: 25,000 KES

Advanced Data Science Program

Enhance your skills in data science and machine learning using Python.

Duration: 2 Months
Cost: 30,000 KES

Internet of Things: Beginner & Advanced

Learn to combine programming with hardware design to create interactive systems.

Duration: 2 Months
Cost: 30,000 KES

Flutter & Dart Programming

Master Google's mobile app SDK for cross-platform app development.

Duration: 2 Months
Cost: 40,000 KES
